THE OPPORTUNITY

The former Golden Isles YMCA at 144 Scranton Connector is a rare opportunity to acquire an established, adaptable campus in Brunswick. The approximately 10-acre site includes approximately 45,000 square feet of existing improvements, an indoor natatorium, outdoor competition pool, gymnasium-scale program areas, green space, and 150+ surface parking spaces. The property gives a purchaser a meaningful head start for a wellness, education, recreation, rehabilitation, community, workforce, or other end-user program. Pricing is available upon request to qualified purchasers.

WHY THIS CORRIDOR IS READY NOW

Exit 42 Corridor: \$115M+ in New Investment.	Buc-ee's (74,000 SF, \$30M+), Hillpointe Distribution Center (500,000 SF, \$35M+), JB2 Manufacturing (\$15M+), multiple new hotel flags, and active GDOT infrastructure investment on Scranton Connector have transformed this corridor. The YMCA site sits at the residential-to-commercial transition point, precisely where institutions and developers are looking for scale.	Adaptive Reuse Flexibility.	The building's large, open floor plates, gymnasium volumes, and pool structures are purpose-built for high-activity institutional programming. Whether you need simulation labs, training floors, aquatic therapy, or community programming space, the existing improvements can be adapted to your mission — at a fraction of the cost of new construction.
Institutional Demand Growing.	The Scranton Connector corridor is experiencing its strongest period of investment in a generation. Medical, educational, and government users are actively seeking owned facilities in Brunswick. A 10-acre campus with existing improvements is exceptionally rare in this market.	Natatorium: A Regional Rarity.	Indoor aquatics facilities of this scale are nearly impossible to replicate in coastal Georgia. For any institution with health, wellness, or athletics programming, this represents a ready-made asset that would cost \$4M+ to build from scratch.

ADAPTIVE-USE SCENARIOS | END-USER ACQUISITION

The current layout and design of the improvements present a terrific opportunity for an end user to adapt the property to meet its needs. The existing natatorium, outdoor pool, gymnasium-scale areas, parking, and green space give a purchaser a platform for a broad range of programming without beginning from a blank site.

USE SCENARIO	BUYER TYPE	PROGRAMMATIC FIT
Higher Education Annex or Satellite Campus	College / University	Allied health simulation labs, continuing education, athletics and aquatics annex, administrative consolidation, or student services hub. Natatorium directly supports health sciences, kinesiology, and athletics programs. 150+ parking supports high-occupancy class scheduling.
Technical College or Workforce Training Campus	Technical College System	Expanded instructional space for health, trades, and public safety programs. Owned facility eliminates lease dependency. Natatorium supports EMS, fire, and allied health training. Large floor plates accommodate simulation labs and equipment bays.
Health System Wellness or Rehab Campus	Hospital / Health System	Aquatic therapy, cardiac rehabilitation, community wellness center, or outpatient services expansion. Natatorium is the anchor amenity. Arterial location supports patient access. Proximity to Southeast Georgia Health System main campus (1.5 mi).
Government / Public Institutional Use	County, State, or Federal Agency	Public recreation, law enforcement or emergency services training, consolidated administrative offices, or community services campus. Large surface lot supports fleet and public access. Zoning allows institutional uses with appropriate approvals.
Faith-Based or Non-Profit Campus	Church / Non-Profit	Multi-use community campus with worship, education, and recreation components. Natatorium and gym support youth and community programming. Scale and parking support large congregation or multi-program operations.

PROPERTY AERIALS | CORRIDOR CONTEXT

Site boundary outlined. Main facility, indoor natatorium, outdoor competition pool, surface parking, and green space visible. Embassy Suites and Glynn Place Mall upper left.

Hybrid corridor context. I-95 Exit 42 lies to the west; the subject is positioned in an established commercial district with access to Brunswick and the Golden Isles.

LOCATION | CORRIDOR CONTEXT

Strategic Position — Scranton Connector Corridor, Brunswick, Georgia

The property at 144 Scranton Connector occupies a rare position at the commercial heart of the Exit 42 corridor — one of coastal Georgia's most active investment zones. Within a 4-mile radius, the site is surrounded by major retail, hospitality, healthcare, higher education, federal government, and port infrastructure. The corridor has absorbed more than \$115 million in new investment in recent years, and institutional demand for owned facilities in this market has never been stronger.

LOCATION HIGHLIGHTS

LOCATION	PROXIMITY	SIGNIFICANCE TO PURCHASERS
I-95 Exit 42	±1.5 miles west	Direct on-ramp from Scranton Connector to I-95 North/South; immediate access to the regional highway network, Port of Brunswick logistics corridor, and I-16 toward Savannah and Atlanta.
Golden Isles Pkwy	Direct access via Scranton Connector	GA-25 Spur connects the corridor to US-17, Jekyll Island, St. Simons Island, and the Golden Isles coastal communities. Key arterial for tourism, hospitality, and coastal commerce.
Glynn Place Mall / Embassy Suites	Adjacent — directly across Scranton Connector	The Glynn Place Mall complex and Embassy Suites by Hilton Brunswick are immediately adjacent, creating a strong retail and hospitality anchor. The site benefits from the traffic, visibility, and amenity base of this established commercial node.
College of Coastal Georgia (CCGA)	±1.5 miles north	CCGA is in an active capital expansion phase, with the Nunnally Hall groundbreaking in 2026 marking a new era of campus investment. The property represents a natural extension opportunity for the College's growing programmatic and facilities needs.
Southeast Georgia Health System	±1.5 miles	SGHS Brunswick Campus at 2415 Parkwood Drive is the region's primary hospital and health system. Proximity supports health sciences programming, aquatic therapy, cardiac rehabilitation, and allied health workforce development use cases.
Port of Brunswick	±4 miles via Golden Isles Pkwy	The Port of Brunswick — Colonel's Island Terminal — is the nation's top auto and equipment port by volume. The port's continued expansion drives significant logistics, workforce, and government investment throughout the corridor.
FLETC / Glynco	±3 miles northeast	The Federal Law Enforcement Training Centers campus spans 1,600 acres and trains thousands of federal law enforcement officers annually. FLETC's presence anchors a permanent federal government footprint in the Brunswick market.
